

TRAK
TAKE THE TRAK LESS TRAVELLED

◀ **SUSTAINABLE SAFETY FOOTWEAR RANGE**

◀ THE SAFETY FOOTWEAR RANGE

Introducing Trak boots, the footwear range certified to the latest EN standards. As trailblazers in the industry, we take great pride in being among the first to meet this new safety footwear standard. With Trak on your feet, you can have confidence that you are protected by footwear that sets the benchmark for durability, comfort, and safety; leaving the competition behind.

SAFETY FEATURES

With Trak, safety comes first. Trak footwear is designed in the UK with our range including the following safety features;

- ◀ Anti Static **AS**
- ◀ Protective Comfort Insole
- ◀ Non-Metallic Fibreglass Toe Cap

CONFORMS TO LATEST STANDARDS

All Trak footwear conforms to the new EN Standard, 20345:2022, with new standard features in the range including:

- ◀ NEW Water Resistance Standard **S7**
- ◀ NEW Slip Resistance Standard **SR**
- ◀ NEW Scuff Cap Abrasion Resistance Standard **SC**

Choose trailblazing safety footwear and *take the Trak less travelled.*

◀ THE RECYCLED FOOTWEAR RANGE

At Trak, we believe in walking the talk when it comes to our commitment to a greener, cleaner planet. That's why our entire range of high performance safety footwear is sustainable, utilising recycled materials, with consideration of the impact our footwear has on the Earth in every step we take.

PACKAGING

Trak's carton, box and packing paper is made from 100% recycled and recyclable paper which is FSC (Forest Stewardship Council) certified.

RECYCLED MATERIALS

The full Trak range uses post-consumer recycled PET wherever possible, including:

- ◀ GRS certified 100% recycled thread
- ◀ GRS certified 100% recycled lining
- ◀ GRS certified recycled blended insole

GRS (Global Recycled Standard) is an international standard developed by the Textile Exchange and sets requirements for the level of recycled materials used to gain certification.

DURABILITY & LIFETIME VALUE

The entire Trak safety footwear range is durable and designed to last. According to the Waste & Resources Action Programme (WRAP), increasing the lifespan of your footwear can dramatically reduce its carbon, water and waste footprint.

Reduce your environmental footprint and *take the Trak less travelled.*

◀ THE RESPONSIBLE FOOTWEAR RANGE

Traceability and transparency in our supply chain is essential to us being able to prioritise ethical and sustainable practices in manufacturing every single Trak product. Make the responsible choice by choosing Trak sustainable safety footwear.

ETHICAL SOURCING & SUSTAINABLE MANUFACTURE

All of our leather is certified silver by the Leather Working Group (LWG). LWG is a global not-for-profit organisation committed to building a sustainable future with responsible leather, driving best practice and positive social and environmental change to deliver responsible leather production.

Just 20% of footwear worldwide is manufactured with leather accredited by the LWG and Trak are proud to be amongst that number.

Through LWG certification, ISO 14001, ISO 9001 and ISO 45001, we monitor and drive change to deliver:

- ◀ Reduction of water and energy usage
- ◀ Effective management and reduction of harmful emissions
- ◀ Reduction in waste generation
- ◀ Animal welfare due diligence through material traceability
- ◀ Increased resource efficiency in leather production
- ◀ Full compliance with UK (and relevant global) environmental legislation
- ◀ Decent working conditions and fair treatment of workers

Make the responsible choice and *take the Trak less travelled.*

TRAK WATERPROOF S7L SAFETY BOOT

KES860

CONFORMITY: EN ISO 20345:2022 S7L SR FO SC

SIZES: 7-13

UPPER: Leather - LWG Silver Standard

MIDSOLE: 20% Recycled Post-Consumer Plastic

LINING: 100% Recycled PET

SOLE: PET

SAFETY FEATURES:

- ◀ Steel Toe Cap
- ◀ Protective Comfort Insole
- ◀ Anti Static **AS**
- ◀ Membrane lined Water Resistant **WR**
- ◀ New Standard TPU Scuff Cap **SC**
- ◀ Durable Dual Density Sole
- ◀ New Standard Slip Resistance **SR**

ECO FEATURES:

- ◀ Sustainable Leather Upper Certified to LWG Silver Standard
- ◀ 100% Recycled GRS Certified Thread
- ◀ GRS Certified 100% Recycled Lining & Recycled Blended Insole
- ◀ Box & Carton – FSC Certified 100% recycled
